## User Guideline for Spectral Imaging Instruments “ Ami HTX” in vivo imaging system

1. Users are required to reserve the instrument prior to use. Please contact Xiaodong (xdyang@mmrx.org) or Jan (jrydzewski@mmrx.org). A user request form is attached.
2. Note that the instrument captures bioluminescence, fluorescence as well as X-ray images.
3. A MMRI member will operate the instrument with the user in attendance.
4. The “Ami HTX” system can capture images of five animals at a time (5 animals per tray).
5. **Imaging Charges** are \$200 per hour, billed in 30-min increments.
6. **Anesthesia machine charges** are additional and are based on usage time as currently done
7. Users will save their images in their respective folders on the instrument’s computer and import the images within one day of acquisition to their memory sticks.
8. MMRI will provide one free copy of Spectral Imaging Instruments’ proprietary imaging software to each group using the instrument.
